

November 10, 2025: On Its Time for a Change in Texas

After THREE TERMS in Texas as Governor and after **failing to address my numerous emails to his office regarding the criminal efforts of Donald Trump to disrupt my personal and professional life,**

I am recommending that Texas move past Greg Abbott as the Texas Governor.

His record of FAFO is **ready to FO about what Texans believe in and what they see as inappropriate, demeaning, and dictatorial.**

Greg Abbott failed the citizens of Texas when he failed to stand up to the criminal conspiracy of Donald John Trump.

Greg Abbott, I supported you in 2022, and in 2026, **I oppose you.**

Thanks for nothing, you criminal co-conspirator.

Isn't everyone around here tired of being ruled over by the same group of old white men?

Seriously, when did an 80 year old, white male become the ruler of everything American?

This is Freemasonry and it has held Texas back long enough.
FREE US FROM THE TYRANNY OF FREEMASON OPPRESSION!

I will not support another lying scoundrel ever again. Get fucked losers.
